Streamline your Installation with Prolon Customizable Pre-wired Control Panels

Prolon pre-wired UL-certified controller panels, are designed for seamless integration into any project. This facilitates straightforward, repeatable installation, especially when deploying multiple units within a single project. This comprehensive solution offers customers a cost-effective, aesthetically pleasing, and certified-safe option—all bundled into one customizable easy-to-install package.

Single Controller Panels

Prolon single controller panels are perfect for installations requiring basic control options, making installations quick, clean, and repeatable. Users can benefit from an optional integrated touchscreen for monitoring points and adjusting settings if required. UL certification means Prolon panels handle projects safely and reliably.

All Our Panels offer :

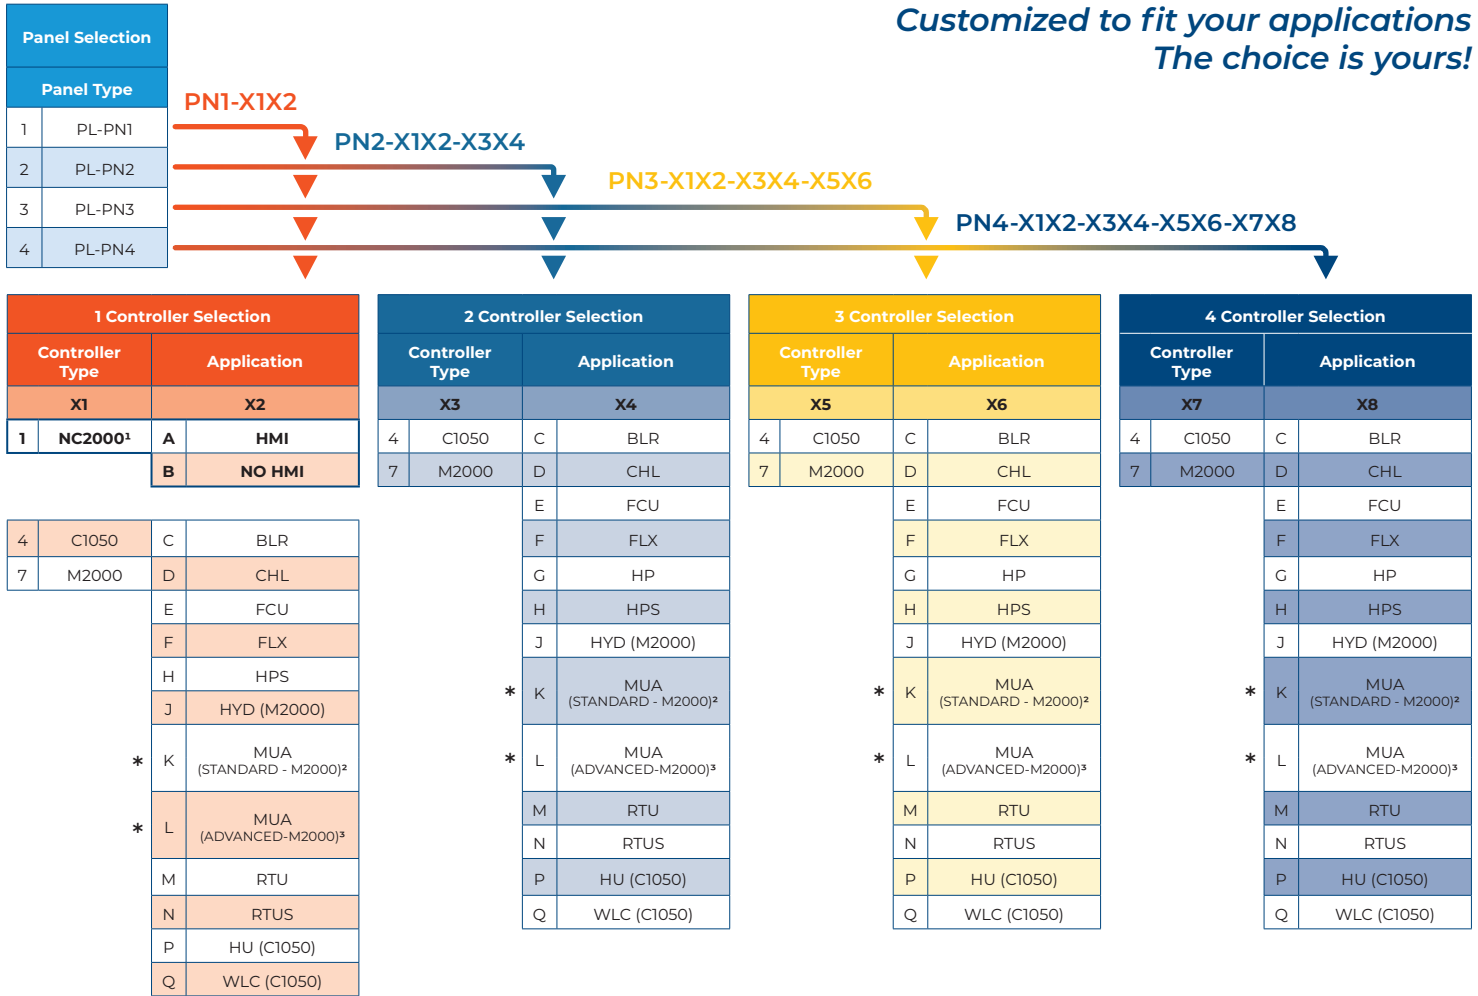

- Customizability to suit your specific applications.
- Flexibility with or without touchscreen display options.
- Expandability up to four controllers in total.
- Pre-wired configuration for a clean setup.
- Expedited field installations for swift deployment.
- UL-certification ensuring the highest safety standards.
- Rugged construction for long-term reliability.
- Repeatable, consistent, deployment.

Multi-Controller Panels

Multi-controller panels seamlessly combine the Prolon NC2000 network controller with your choice of M2000 or a C1050 controllers, providing the versatility essential for projects requiring enhanced functionality. These customized units can efficiently oversee the entire Prolon Control system, offering users quicker installation and easier configuration, all within a durable, reliable UL-Certified panel.

Customized to fit your applications
The choice is yours!

When ordering multiple controllers in a panel, sort the controller selection based on increasing number, followed by increasing letter.

- *1 - Only 1 PL-NC2000 permitted per panel
- PL-NC2000 can be selected with or without touchscreen
- A panel with 4 controllers MUST have a PL-NC2000
- *2 MUA Standard: Make-Up Air Unit panel WITHOUT additional hardware (selector, LED's, lockout reset button)
- *3 MUA Advanced: Make-Up Air Unit panel WITH additional hardware (selector, LED's, lockout reset button)

Order Number Examples

PL-PN4 - NC2000-HMI - C1050-HPS - M2000-CHL - M2000-RTU **PL-PN4** - **1 A** - **4 N** - **7 D** - **7 M**

PL-PN3 - C1050-BLR - C1050-RTUS - M2000-FCU **PL-PN3** - **4 C** - **4 N** - **7 E**

PL-PN2 - M2000-FLX - M2000-RTU **PL-PN2** - **7 F** - **7 M**

PL-PN1 - M2000-HP **PL-PN1** - **7 G**
