1 - PL-M2000 Unit Controller + PL-VC2000 Zone Controller(s)

Recommended wiring for communication: #24/2, stranded, twisted and shielded, low-capacitance.

Recommended wiring for 24VAC supply: #18/2, stranded.

**Connect "24VAC" and "C" terminals to "R" and "C" terminals respectively on A/C control board.*

2 - PL-NC2000 Network Controller + PL-M2000 Unit Controller(s)

Recommended wiring for communication: #24/2, stranded, twisted and shielded, low-capacitance.

Recommended wiring for 24VAC supply: #18/2, stranded.

**Connect "24VAC" and "C" terminals to "R" and "C" terminals respectively on A/C control board.*

3 - PL-VC2000 Zone Controller + Digital Wall Sensor

Recommended wiring for communication: #24/2, stranded, twisted and shielded, low-capacitance.

Recommended wiring for 24VAC supply: #18/2, stranded.

4 - PL-M2000 Single-Zone Unit Controller + Digital Wall Sensor

Recommended wiring for communication: #24/2, stranded, twisted and shielded, low-capacitance.

Recommended wiring for 24VAC supply: #18/2, stranded.

**Connect "24VAC" and "C" terminals to "R" and "C" terminals respectively on A/C control board.*

5 - PL-C1050 Single-Zone Controller + Digital Wall Sensor

Recommended wiring for communication: #24/2, stranded, twisted and shielded, low-capacitance.

Recommended wiring for 24vac supply: #18/2, stranded.
